BOX FULL OF BEAUTIFUL MEMORIES

We experience so many beautiful moments, and they shouldn't just be hidden away on our smartphones. How about your very own personal memories box instead?

METHOD

- 01.** Start by penciling in the flowers and then the leaves and infills on the box lid. Make sure you arrange the flowers evenly and allow sufficient space for the lettering.
- 02.** Next, draw a horizontal and vertical line with a ruler to divide up the layout.
- 03.** Draw a rectangle for each word. Start with the outline for the word „beautiful“, placing it in the middle. Then draw a box above and below, spaced from it at a distance of approx. 1 cm.
- 04.** In them, now pencil in the wording of your choice. Make sure you only press lightly so you can easily erase the pencil lines afterwards.

- 05.** Now take your watercolour paints and brush and paint the flowers first, allowing them to thoroughly dry. Then add the leaves and the embellishments.
- 06.** Once the watercolour paint has dried, use a felt pen to trace over the lettering you have sketched in.
- 07.** Finally, you can speckle your lettering with the watercolours you have mixed.
