HANGING GLASS FLOWER VASES

nobilia[®]

THIS IS ALL YOU NEED

- » Empty bottles/jars (e.g. jam jars or similar containers)
- » Sturdy string, a nylon cord being ideal (at least 6 metres)
- » Scissors
- » Flowers and grasses of your choice (fresh or dried)
- » Water if necessary

HANGING GLASS FLOWER VASES

NATURE'S FLOWERS ALOFT

Summer's a time for taking it easy and hanging around: whether in the kitchen, the living room or outside in the garden – hanging glass containers filled with flowers and foliage add a pretty feature to your home and display a splash of colour with stunning effect.

METHOD

- 01.** Take an empty glass jar or bottle and rinse it well. Glass vessels with a neck lip are best because they are the easiest to hang.
- 02.** Wrap the string around the neck of the vessel several times and knot the end.
- 03.** Place the second end of the string over a pole you are attaching the glass vessels to and tie it to the pole as well. Wall or ceiling hooks also make a suitable anchor. Note: the string shouldn't be too short!
- 04.** Fill the vessel with water.
- 05.** Now you can decorate your glass containers with any flowers you prefer

TIP:

The hanging vases look best if you place 4-5 of them in a row. When hanging them, make sure the vessels hang at different levels. Generally speaking, it looks more natural if they are not completely symmetrical.
